OBJECTIVE

A hardworking postgraduate in Front-End Web Development seeking a co-op opportunity to apply skills in coding and design. Proficient in HTML, CSS, and JavaScript for front-end development, with experience in frameworks like React.js and Angular. Skilled in utilizing GitHub for version control, MySQL for database management, and adept at design tools such as Figma and Photoshop for UI/UX design. Strive to develop intuitive solutions that enhance user experience and drive business success.

SKILLS

Design planning: Ability to plan for the design of applications, create wireframes, and design UI.

Problem-Solving: Served as the primary escalation point for office administrators across 20 locations, effectively resolving system malfunctions and providing technical support to ensure seamless operations.

Conducting Research: Justifying design by following UX Design Principles.

Communication: Managed client relations and streamlined order processing for multiple manufacturers, coordinating logistics to ensure timely delivery of end products.

Analytical: Digitalized paper records onto excel sheets to achieve time-savings

Prioritization: Demonstrated proficiency in managing diverse priorities to ensure successful outcomes.

Marketing: Experienced in leveraging SEO techniques to enhance online visibility, drive traffic, and optimize digital marketing campaigns

PROJECTS

“Drive Quest” Utilized creativity and teamwork in brainstorming sessions. Mastered Front-End development, proficiently using HTML, CSS, JavaScript (incl. Bootstrap and Node.js), to develop game.

[Albany Medical Clinic](#) Enhanced interface usability and user experience for a medical institution's website by redesigning it with Figma, incorporating wireframes, clickable prototypes, a comprehensive style guide, and custom icons to foster improved engagement and accessibility for diverse user demographics.

WORK EXPERIENCE

Accounting Clerk, Alexanian Carpet and Flooring 2019-24 Demonstrated exceptional time management and prioritization, achieving remarkable efficiency by completing tasks typically taking 40 hours in just 20 hours per week, balancing work and full-time schooling. Managed financial operations across 20 store locations, while also overseeing client relations and optimizing order processing for multiple manufacturers to ensure timely deliveries.

Web Consultant, Hostopia 2016-18 Acquired client requirements and utilized persuasive communication skills to provide expert troubleshooting and improvement recommendations for existing websites.
